

QUEENSLAND needs your HELP

OTHERWISE
THOUSANDS
of JOBS will
be LOST

The Queensland Government's new **CHAIN OF RESPONSIBILITY** laws poses the greatest single threat to jobs and investments that QLD has ever seen.

No other state has this legislation; and for good reason!

This law imposed by the ALP does not just focus on company owners and directors, but creates massive burdens on employees, investors and financiers.

Imagine trying to bank a new business and never knowing what the total cost would be, or how high the risk could go.

It makes financing new projects and creating jobs in QLD virtually impossible. And it stretches into older existing projects like Townsville's Nickel Refinery and Mt Isa's mines.

How could anyone buy a project if the State Government is saying they could bankrupt you at any time?

THE ALP'S STANCE IS ANTI-JOBS AND WILL COST QLD \$BILLIONS IN LOST INVESTMENT & THOUSANDS OF JOBS WILL BE LOST.

Vote for a political party in the coming state election that repeals the 'CHAIN OF RESPONSIBILITY' laws, and creates jobs.

Drain the swamp, don't vote ALP.
